### **Christmas Tree Management Twilight Program**

**Date:** June 8, 2010

**Time:** 6:00 p.m.

Place: Yuletide Christmas Tree Farm, 138 Ever

green Road, New Egypt, NJ

### Sponsored by the NJ Christmas Tree Growers Association and **Rutgers Cooperative Extension**

The NJ Christmas Tree Growers Association and Rutgers Cooperative Extension will co-sponsor a Christmas Tree Management Twilight Program on Yuletide Christmas Tree Farm at 6:00 p.m. Monday, June 8, 2010. The Perry family are the owners and host for the farm, located at 138 Evergreen Road, New Egypt, New Jersey.

Discussions will be conducted by Dr. Mark Vodak, Forestry Extension Specialist, Rutgers Cooperative Extension and Mr. John Perry, owner of the Yuletide Christmas Tree Farm. Discussion topics will include species selection, weed management, insect and disease control, erosion control practices, deer issues and marketing. Proper shearing techniques will be demonstrated.

For further information or questions regarding the twilight meeting call 732-932-8993 x14.

### **Produce GAPs Harmonization Initiative**

### **Background**

Many leaders throughout the produce industry have increasingly recognized the cost and inefficiency of multiple standards and audits now being used to measure compliance with Good Agriculture Practices (GAPs). Neither produce suppliers nor retailers and foodservice companies are well served when duplicative standards and audits raise total supply chain costs without enhancement of overall food safety.

In addition to general business leaders, the United Fresh Produce Association Food Safety & Technology Council, consisting of food safety and quality assurance experts across the supply chain, has looked at a variety of GAP standards and audits in use and under development, and has concluded that there is sound scientific potential for harmonizing basic GAP standards to meet the needs of these many stakeholders.

As a means to further explore the potential and accelerate the possibility for industry-wide commitment to harmonized standards, United Fresh hosted a <u>Global Conference on Produce Food Safety Standards</u> immediately following its annual convention in April 2009. Some 300 leaders from each stage of the produce supply chain, government, and third-party standard owners and auditors from around the world participated in the two-day conference.

During the conference, government and private-sector stakeholders involved with both on-farm produce GAP standards/audits and post-farm gate audit protocols presented overviews of their own systems, followed by group break-outs exploring questions about the potential value of harmonization and greater alignment of standards.

As suspected, a clear pattern of duplication and overlap among the many standards became apparent, leading participants toward a general consensus on the need to work together toward harmonization of standards.

### **Outcomes from the Conference**

Conference participants reached a number of conclusions that may serve as a platform for further effort ahead:

- Produce GAP standards used in various audits seem to be at least 90% the same, providing a clear opportunity for harmonization.
- Commodity-specific food safety standards and audits (leafy greens, tomatoes) are being done
  and being accepted through the supply chain. The process of bringing key stakeholders together
  to develop and endorse commodity-specific standards provides a good model for building consensus on general GAP standards.
- Inclusion of non-food safety standards (environmental, social issues) is a likely obstacle to harmonization, particularly in North America. These issues may need to be addressed separately.

- A PUBLICATION OF RUTGERS COOPERATIVE EXTENSION OF CUMBERLAND COUNTY
- Harmonization of general GAP standards/audits must be transparent with open communication of intent, progress, and conclusions.
- Retailers, foodservice companies, fresh-cut processors, grower-shippers, and government must all be at the table working together.

Auditors and standard owners need to be at the table as well, but not at the expense of the harmonization goal.

### **Action Steps Toward Harmonization**

A harmonization committee made up of growers, wholesale and retail buyers, third party audit firms and the federal government have been meeting each month since June 2009 to develop a standardized basic GAP audit. The Standards considered in this harmonization and used with permission:

- AFDO Model Code for Produce Safety
- AIB International
- Food Safety Programs and Auditing Protocol for the Fresh Tomato Supply Chain
- California Leafy Green Handlers Marketing Agreement
- California Strawberry Commission Food Safety Plan
- CanadaGAP Combined Vegetables On-Farm Food Safety Manual
- Community Alliance with Family Farmers
- GlobalGAP Fruit and Vegetables
- SENASICA
- Silliker GAP Audit
- SQF 1000
- USDA GAP Audit
- USDA Mushroom Production Audit

To review the harmonization standards and make comments to the committee go to <a href="http://www.unitedfresh.org">http://www.unitedfresh.org</a>.

### **Audits Benchmarking Matrix**

The Audits Benchmarking Matrix was developed by members of the United Fresh Produce Association (United Fresh) Food Safety & Technology Council for use by the entire Produce Industry supply chain, i.e., growers, shippers, processors, retailers, foodservice and other buyers. The purpose of the Audits Benchmarking Matrix is to provide an infrastructure that facilitates a side-by-side comparison of audit organizations and food safety standard owners that are most commonly used in the produce industry today. To check out the matrix go to <a href="https://www.unitedfresh.org">https://www.unitedfresh.org</a>.

With this robust searching tool, users can:

Search and compare various features that are critical to the quality, reliability and integrity of these organizations' audit programs.

Assess the quality features of an audit or standards setting organization.

Make more informed decisions about which organizations' audit, auditor and audit performance quality programs best align with your suppler quality programs.

### A PUBLICATION OF RUTGERS COOPERATIVE EXTENSION OF CUMBERLAND COUNTY

### How to use the Audits Benchmarking Matrix

Read the TERMS OF USE and, if you agree, click on the link to the Matrix

Select "Pre-Farm Gate", "Post-Farm Gate" or "Standard Owner".

Select the organization(s) of interest.

Select the Program Element(s) of interest: Overview, Audit, Auditor/Certification Body, and Audit Performance.

Use the Search Function to locate 'key words' in the Program Elements or organizations responses. Use the Print function of your browser to print.

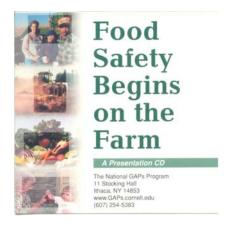

### TERMS OF USE

The Audits Benchmarking Matrix provides an infrastructure that facilitates a side-by-side comparison of audit organizations and food safety standard owners that are commonly used in the produce industry today. It is not intended to, and does not provide any endorsement of any particular audit organization. United Fresh welcomes other audit organizations to seek inclusion in future editions of the Audits Benchmarking Matrix. United Fresh also welcomes corrections and additional information from any listed audit organization but United Fresh reserves the right, in its sole discretion, to include any additional material provided.

Any entity using this Audits Benchmarking Matrix must make its own individual business decision regarding using any given audit organization.

The auditing firms that are included in the benchmarking include:

- AIB International
- BRC Global Standards
- CanadaGap
- Fresh Florida
- Georgia Fruit & Vegetable Growers Association
- GlobalGap
- International Featured Standards
- California Leafy Green Marketing Agreement
- NSF Davis Fresh
- Scientific Certification Systems
- SGS
- Silliker
- SQF Institute
- Steritech
- USDA.

### Calling All Conservationists!

### Sign-up by June 11 for 2010 Conservation Security Program

Landowners still have time to sign up for the Conservation Stewardship Program (CSP), but the deadline for getting signed up 2010 funds is approaching quickly. According to NRCS State Conservationist Tom Drewes, now is the time for producers and landowners who have considered applying for CSP to sign up at their local NRCS field offices. USDA recently announced June 11, 2010 as the national cutoff date, which will require potential applicants to submit applications quickly.

CSP is a voluntary program that encourages producers to maintain existing conservation activities and adopt new ones on their farm and non-industrial forestland operations. The program is popular for those who go the extra mile with conservation and sustainable practices—whether they've accomplished it on their own or through USDA and NRCS programs.

"We've had good interest in CSP last year and this year, but we did not reach all the producers this program was designed to reach. I'd like to change that this year, but the clock is ticking," explains Drewes.

The sign-up process for this program is more streamlined than its predecessor, the Conservation Security Program. "The conservation options available through CSP will make sense to New Jersey farmers," Drewes said.

Producers and farm families who have maintained a conservation legacy on their farm over the years or those who have changed the operation over the last few years to include more eco-friendly management strategies are rewarded through CSP. CSP pays you to maintain those successful practices AND it helps you add even more solutions that protect soil, water, and related natural resources on your land.

"I know New Jersey has more landowners and producers who are committed to conservation because I see evidence of it on the land every day," Drewes says. "If you are one of those stewards of the land, and you think it might be time to partner with NRCS to do even more of the right thing, I urge you to visit with your local NRCS staff and tell them all you've done. This program was designed to encourage more conservation activity and recognize good stewards like you."

To learn more and get involved with the program for 2010, visit your local USDA Service Center today. Visit http://www.nj.nrcs.usda.gov/programs/new csp.

### Fruit and Vegetable Organic Production Guides Available

The New York State IPM Program has released a series of production guides for fruits and vegetables. Four guides (carrots, peas, snap beans and cucurbits, which include winter squash and cucumbers) were released in 2009 for processing vegetable growers. Nine new guides provide information for farmers on how to produce certified organic apples, blueberries, grapes, lettuce, white potatoes, spinach, strawberries and cole crops, including cabbage, cauliflower, broccoli and Brussels sprouts. The guides may be downloaded at Organic Guides on the IPM website: <a href="http://www.nysipm.cornell.edu/organic\_guide/default.asp">http://www.nysipm.cornell.edu/organic\_guide/default.asp</a>.

### **2010 Agricultural Scholarship Application**

The Greater Vineland Chamber of Commerce is now accepting applications for the 2010 Agricultural Scholarship. Please see details below and contact us for an official application.

### **Eligibility:**

- Must be a graduating high school senior who is planning to continue his/her education at
  a recognized school or college, OR a student currently enrolled in an accredited college
  or university for the study of agriculture including animal, plant, aquaculture or other related fields.
- Must be an active participant in school and community activities.
- Must be able to demonstrate academic responsibility.
- Must have applied to an accredited College or University, if not currently enrolled.
- Requires submission of official transcript.
- Requires submission of completed application, two recommendation forms and written essay.

### **Special considerations:**

- Financial need
- School Counts! Criteria (To make a "c" grade or above in all academic courses, to achieve 95% or better attendance and punctuality record, to complete high school in eight consecutive semesters, and to take more courses than the minimum graduation requirements.
- Special circumstances

**Submit applications to:** GVCC 2115 S. Delsea Drive, Vineland, NJ 08360 or email to: info@vinelandchamber.org. **Deadline: June 25, 2010** 

### Preventive Controls for Fresh Produce; Request for Comments; Extension of the Comment Period

Food and Drug Administration, HHS

The Food and Drug Administration (FDA) is extending to July 23, 2010, the comment period for a notice that appeared in the **Federal Register** of February 23, 2010 (75 FR 8086). In that notice, FDA established a docket to obtain comments and information about current practices and conditions for the production and packing of fresh produce. The agency is extending this comment period to give interested parties additional time to provide the information requested by FDA in that notice.

**DATES:** Submit electronic or written comments by July 23, 2010.

**ADDRESSES:** Submit electronic comments to <a href="http://www.regulations.gov">http://www.regulations.gov</a>.

**Submit written comments to:** Division of Dockets Management (HFA–305),

Food and Drug Administration

5630 Fishers Lane, rm. 1061

Rockville, MD 20852.

### FOR FURTHER INFORMATION CONTACT:

Michelle A. Smith, Center for Food Safety and Applied Nutrition (HFS–317) Food and Drug Administration

5100 Paint Branch Pkwy.

College Park, MD 20740–3835

Telephone: 301–436–2024.

### Pitman Farmers' Market

The Greater Pitman Chamber of Commerce is planning to have a farmers' market this year. They are planning on starting it by the end of June.

The farmers' market will be located in Sunset Auditorium where 40+ vendors can be supported.

If you are interested in participating in the Pitman farmers' market, contact Cory Sickles by email: corysickles@comcast.net or by telephone: 609-707-3571.

### 2010 Nursery Disease Control Meeting

Thursday, June 24th is the date of our Disease Control Twilight meeting. Our Nursery Plant Pathologist, Dr. Ann Gould will be speaking on both warm and cool season diseases. Dr. George Hamilton will also be presenting updated information on Farmworker Safety requirements.

Host: Don Johnson

Location: Johnson Farms Nursery

1868 Highway 77

Upper Deerfield, NJ

Speakers: Dr. Ann Gould 5:00-5:30 Warm season diseases:

Identification and management

Dr. Ann Gould 5:30-6:00 Cool season diseases:

Identification and management

Dr. George Hamilton 6:00-6:30 Farmworker safety

Pesticide Recertification Credits: 2-10; 2-1A; 2-3A; 1-Core and 2-PP2

For additional information contact Jim Johnson at 856-451-2800

### **FACT SHEET**

### UNITED STATES DEPARTMENT OF AGRICULTURE FARM SERVICE AGENCY

May 2010

### Tree Assistance Program for Orchardists and Nursery Tree Growers (TAP)

### Overview

USDA Farm Service Agency's (FSA) Tree Assistance Program (TAP) provides financial assistance to qualifying orchardists and nursery tree growers to replant or rehabilitate eligible trees, bushes and vines damaged by natural disasters occurring on or after Jan. 1, 2008, and before Oct. 1, 2011. TAP was authorized by the 2008 Farm Bill and is funded through the Agricultural Disaster Relief Trust Fund.

### Eligible Tree Types

Eligible trees, bushes and vines are those from which an annual crop is produced for commercial purposes. Nursery trees include ornamental, fruit, nut and Christmas trees produced for commercial sale. Trees used for pulp or timber are ineligible.

### **Eligible Producers**

To qualify for TAP, orchardists and nursery tree growers must:

- suffer qualifying tree, bush or vine losses in excess of 15 percent (adjusted for normal mortality) from an eligible natural disaster for the individual stand;
- have owned the eligible trees, bushes and vines when the natural disaster occurred; however, eligible growers are not required to own the land on which eligible trees, bushes and vines are planted;

 replace eligible trees, bushes and vines within 12 months from the date the application is approved.

Risk Management Purchase Requirement (RMPR)

Orchardists and nursery tree growers must have obtained a policy or plan of insurance for all crops through either the Federal Crop Insurance Act or FSA's Noninsured Crop Disaster Assistance Program (NAP). There are limited exceptions to this rule. Eligible producers who meet the definition of "Socially Disadvantaged," "Limited Resource," or "Beginning Farmer or Rancher" do not have to meet this requirement.

Adjusted Gross Income (AGI)

For the 2009 and subsequent program years, producers or legal entities whose average nonfarm AGI exceeds \$500,000 are not eligible. For the 2008 program year, producers are not eligible if their average AGI is \$2.5 million or greater, unless 75 percent or more of their AGI is from agriculture.

### **Payment Calculation**

For tree, bush or vine replacement including replanting and the cost of seedlings, the payment calculation is the lesser of the following:

• 70 percent of the actual cost of the practice, or

 the amount calculated for each practice using the established rates.

For salvaging existing trees, bushes or vines—including the costs of pruning, removal, or other costs—the payment calculation is the lesser of the following:

- 50 percent of the actual cost of the practice, or
- the amount calculated for each practice using the established rates.

### **Payment Limitations**

For 2009 through 2011 TAP payments, no person or legal entity may receive, directly or indirectly, more than \$100,000 per program year. TAP payments for 2008 are limited per "person" according to payment limitation rules in effect for 2008. The cumulative total quantity of acres planted to trees, bushes or vines for which a producer can receive TAP payments cannot exceed 500 acres during the period of Jan. 1, 2008 and Sept. 30, 2011.

### Signup Period

Orchardists and nursery tree growers may apply to receive TAP benefits at local FSA county offices beginning May 10, 2010, for losses suffered during calendar years 2008 and 2009, and for losses suffered during Jan. 1, 2010, to May 7, 2010.

The following table provides the final dates to submit a TAP application and supporting documentation:

Date of Loss	Final Date to Submit an Application and Supporting Documentation	
Calendar Year 2008	July 6, 2010	
Calendar Year 2009	July 6, 2010	
Jan. 1, 2010 to May 7, 2010	July 6, 2010	
May 8, 2010 to Sept. 30, 2011	Within 90 calendar days from the later of the disaster event or the date when the loss of trees, bushes or vines is apparent.	

More information on TAP is available at local FSA county offices and on FSA's website: www.fsa.usda.gov/tap

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of Discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Ave. SW, Washington, DC 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

### Registration

Pre-registration is necessary because of bus and lodging reservation requirements and space limitations. Registration will be honored on a "first-come, first-served"

Registration should be received by July 1, 2010. No refunds after July 1st.

Name(s):

Business Name:

Address:

Contact Phone:

e-mail:

The registration fee covers tour bus transportation, one night hotel with breakfast, reference materials, refreshments and lunch both days.

Your registration fee depends on how many you have sleeping in your hotel room:

One person/room tour fee: \$240.00 Two people/room tour fee: \$170.00 each Three people/room tour fee: \$150.00 each Four people/room tour fee: \$140.00 each

Make your check payable to: Lehigh County Extension Special Account Send the registration form and check to:

PaFarm (Room 104) 4184 Dorney Park Road Allentown, PA 18104-5798 Bus boarding begins at 8:00 a.m. with departure at 8:30 a.m., Tuesday, July 13th, from the Lehigh County Ag Center, 4184 Dorney Park Road, Allentown, PA 18104.

The bus will depart promptly. Please be prepared to be on time, or better, a little early. We have been known to leave without you.

Expected return to Allentown is 5:00 p.m. on Wednesday, July 14th.

For additional information check www.PaFarm.com, call 610-391-9840 or e-mail John at johnberry@psu.edu.

### WHAT

A bus tour of nine premiere retail farm markets -- with plenty of ideas, education, food and fun for all. This year we are going to the north shore of eastern Long Island, New York. Long Island, New York, is rich in farming history and features many produce farms located in high concentration on East End which is the main agricultural area of Long Island. These farms and farmers' markets are major providers of fresh, locally-grown fruits, berries, vegetables and poultry.

We have something for everyone -seasonal, year round, produce, food, tourism, entertainment and educational farm direct-to-consumer marketing.

# WHO SHOULD ATTEND:

Any farm market owner, manager or other personnel interested in seeing and learning from a variety of retail farm market and agri-tourism entrepreneurs.

# WHAT YOU WILL SEE:

We will tour each operation and focus on what has made it a success. The emphasis is on:

Merchandising, Signage, Display Fechniques, Diversification, Store Design and Layout, Pricing, Innovative Products and Ideas that lead to success.

## Wightman's Farms

Morristown, NJ

'A Family Tradition Since 1922..."

Even today long-time customers remember the days when the fruits and vegetables were sold from a table under the mulberry tree across the street from today's market and cider mill. Today, various members of the second and third generations of the Wightman family continue the tradition of selling the fruits and vegetables grown on the surrounding land.

http://www.wightmansfarms.com/

## Harbes Family Farm

Jamesport, NY

In 1978, two high school sweethearts (Ed and Monica Harbes) married young and started a new life on the family farm in Mattituck.

Ed worked with his father in a multigenerational potato and cabbage farming business. Monica devoted her time to homemaking and motherhood, helping on the farm when time permitted. In 1989, they built a 14' by 14' gazebo and started retailing with the salesmanship of ten-yearold son, Jason. With their eventual expansion to three locations and a vineyard, all eight of the Harbes children have kept busy by taking an active part in farm operations.

## **Bayview Farm Market**

Aquebogue, NY

Bayview Farm Market is one of the largest farm retail locations on the East End. It carries a wide array of vegetables, fruits, flowers, baked goods, ciders and gift items. It retains all the feeling of a true farm market, while providing customers with shelter from weather.

Customers say: "Large farm stand with a nice gift shop inside also. Great selection of local produce. Carry just about everything you can think of as far as fruits and veggies. Good prices."

## **Briermere Farms**

Riverhead, NY

John Berry says, "Some of the best pies I have ever eaten. Great food focused farm market with deep family involvement."

## White Post Farms

Melville, NY

'Best of Long Island for Children's Sirthday Parties'' 3 years in a row! As seen on NBC • Fox • The Today Show • Daily News • New York Times • NY Magazine

White Post Farms evolved from a familyowned and operated vegetable farm trucking to the Brooklyn market during the period in the 1920's through the 1980's. A roadside farm stand was opened in 1964 and greenhouses were erected so flower and vegetable plants could be grown therein. Through events like the Annual Fall Farm Festival, White Farms continues an age old tradition of country fairs with a modern twist.

### Sang Lee Farms

Peconic, NY

Sang Lee Farms is a second generation family farm originally growing produce for the Asian markets in New York and along the east coast. Over the last fifteen years, the farm has shifted its focus to retail, farmers' markets and community supported agriculture. The farm has developed its own full line of prepared foods. Dressings, dips, pestos, pickled products, jellies and cooking sauces are now available, and are featured whenever Sang Lee Farms hosts special events and tastings.

### Lewin Farms

Calverton, NY

"If you want to pick-your-own, pick

- Lewin Farms"

Lewin Farms is a family owned and operated farm that has been on Long Island for four generations. They were the first pick-yourown farm on Long Island, and they are continuing this tradition with pick-your-own strawberries, peaches, tomatoes, peppers, eggplant, apples, pumpkins and cut-your-own Christmas trees.

They also stock a wide variety of farm fresh, locally-grown fruits and vegetables at their 8,000 square foot farm stand.

# A. Schmitt & Sons Farm

Dix Hills, NY

"We Grow For You, Buy Green, Buy Local"

Their mission is to develop gardeners by offering a very healthy plant at a very reasonable price. If their customers become successful gardeners, then their business just naturally grows and they are then also successful. They develop their clientele by word of mouth mostly. They feel that if they can get the customer to visit them even once, they will be a customer for life. In addition, they advertise to help grow their business. They count on the repeat customer and thus offer a great selection, healthy product and a good price.
